The Leader in Next Generation 911 Solutions

24x7 "live answer" customer response • Your PlantCML certified dealer in South Dakota, North Dakota, Minnesota, Nebraska and Iowa.

NEXT GEN 911

Full Next Generation Integration

- Are you constrained by a legacy design that may put public safety at risk?
- Will your system limit the amount of information and intelligence that can be managed and processed?

SDN understands Next Generation 911 solutions. SDN's certifications and experience in IP telephony, networking equipment and technology infrastructure make SDN the leader in fully integrated 911 solutions.

PHONE SYSTEMS

IP Telephony

- What are you currently doing to ensure timely and accurate responses to emergencies?
- Do you have a phone system in place that will expedite services?

SDN understands how vital phone systems are to your business. SDN partners with industry leaders like **Avaya, Cisco and Mitel** to provide IP telephony solutions that will increase productivity and emergency response.

NETWORKING EQUIPMENT

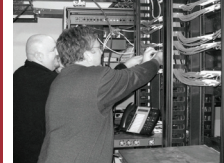

Data Integration and Networking Equipment

- Can your current equipment handle the latest communication technology methods?
- Is your equipment costly to maintain and in danger of failure?

SDN has staff certified in leading-edge networking equipment, including **PlantCML, Microsoft, HP, Extreme Networks, Cisco, Citrix, Quantum and Juniper**.

CABLING

Structured Cabling

- Is your current infrastructure capable of handling the necessary changes associated with e911?
- Is it ready for ever-changing communication technology?

SDN has staff certified in **BICSI**, Registered Communications Distribution Design (**RCDD**) and Telecommunications Project Management. These certifications ensure that your infrastructure is ready for whatever technology comes your way.

SDN's certified and experienced staff is your Next Generation 911 technology partner — research, installation, service, and everything in between.
